#### References to standards and specifications

No harmonised standard has been published under Article 5 of Regulation (EU) 2025/40 at the time of issue of this declaration. Compliance is demonstrated through the supplier's technical documentation, test reports and upstream supplier declarations confirming that the sum of Pb + Cd + Hg + Cr(VI) concentrations in all packaging components listed in "Subject matter and description of packaging" does not exceed 100 mg/kg, in accordance with the conformity assessment procedure set out in Annex VII (Module A — Internal production control) of the Regulation.

#### Technical documentation

The supplier declares that it holds and will maintain technical documentation supporting this declaration, including at least: (i) the Packaging BOM in "Subject matter and description of packaging"; (ii) packaging drawings / specifications; (iii) an analysis and assessment of the risks of non-conformity.

#### Additional information

D-Link Corporation further declares and undertakes that:

(i) it will keep the technical documentation and test evidence available for the period specified in Article 15(3) of Regulation (EU) 2025/40 (five years for single-use packaging; ten years for reusable packaging); (ii) this declaration is valid from the date of signature until superseded by an updated declaration.
