

DP-300+ Firmware Release Note

Firmware: v3.10 Build 4

Hardware: C1

Date: April 7th, 2006

Problems Resolved:

1. Fixed didn't district user key in more than 8 characters on DP-300+ web page, since it's not saved after press "apply".
2. Fixed configuration file can't backup the IP address and subnet mask.
3. E-mail Notification-- EPSON Color 600 doesn't report 'paper out' status to print server, so print server no action. For most of printers, it will report 'paper out' status, so print server can send an e-mail notification.

Firmware: v3.10

Hardware: C1

Date: June 06, 2005

Enhancements:

1. **Support Password setting with maximum length up to 32 characters from Web GUI, and can be login from Web GUI with long password.**

Note: Long password setting/login only support on Web GUI, PS Admin is not supported.
